Lubrication Management

# It's time to throw away the clipboard...

## Task Management

Your team will have an overview of the equipment to lubricate today, at what point and with which product, you can even look at the upcoming tasks to organise your lubricant stock.

- See schedules for upcoming tasks
- Handy reminders
- Product summary

## Your audit friendly assistant

InSite's records can be filtered any way you need, giving you audit ready reports per site, per area, per machine or even per member of staff

### Generate reports by:

- Date range
- Site or area of site
- Specific equipment
- Personnel

## Work offline

InSite is designed to work off-line, just complete the lubrication tasks and all your tasks can be uploaded as soon as you have an internet connection again.

## Info in an instant

No need to search through filing cabinets for safety data information or accreditations, InSite has it all in a click.

## Find out more

It's time to throw away the clipboard and keep your production running smoothly with Vickers Oils Food Grade Lubricants and the InSite Lubrication Management app. If you would like to find out more contact us to arrange a consultation.
